Issue # 11
July - September 2010

The screenshot shows the e:gov website interface. At the top, it says "e:gov" and "Asia's First Monthly Magazine on e-Government". There are navigation tabs for "Magazine", "e-Newsletter", and "Events". Below this, there are "HOT Topics" including "e-Governance", "General", and "e-Business/ e-Commerce". A search bar is visible on the right. The main content area features a "Current Issue: July, 2010" section with a "Download PDF" link. The primary article is titled "Jamia Millia Islamia University to Get e-File" and is dated "05 July 2010". The article text describes the university's preparation for e-Governance and the implementation of an e-File tracking system. Below the article, there is an "Interviews" section featuring a photo of Jerome Bonnafont, French Ambassador to India. At the bottom of the article, there is a "Click Here to Write Your Comment" button.

The third quarter of the year started with the new academic session in the University in which the most important activity was “admissions” to various PG/UG/ Diploma/Certificate programmes. It is thus quite natural to cover in this issue the MIS-based statistics on Jamia Admissions 2010-11. This issue also includes information about the steps taken by the MIS group to incorporate semester system in the JMI-Management Information System. The implementation of “e-file Tracking System” in Jamia received wide media coverage, both by the print media as well as e-newspapers and e-magazines. A report on network expansion gives the details about the 726 new Internet nodes in various buildings of Jamia during July-September 2010. Information about the web-related services are given as a routine feature.

We welcome your suggestions and feedback.

Zahid Husain Khan

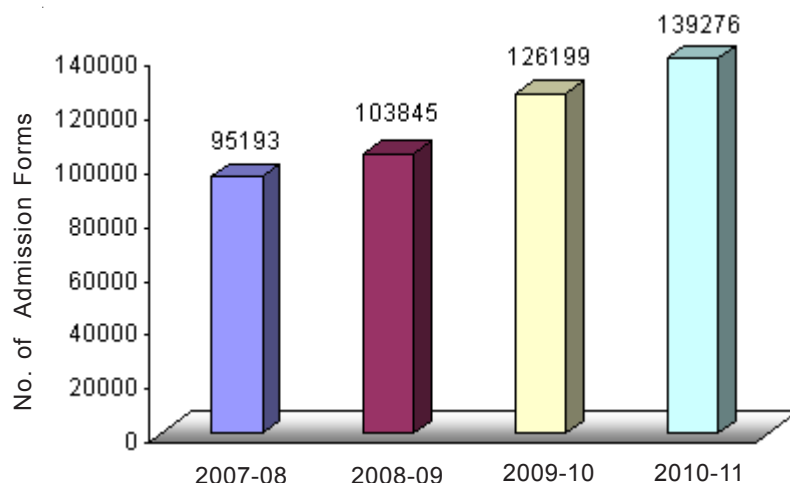

MIS-based Statistics on Jamia Admissions-2010

Popularity of Jamia's Courses on the rise

Courses in Jamia are becoming more popular year after year. This is evident from the number of Application Forms for admissions to various courses received during the past four years. A statistical data on the number of application forms received during these years is displayed in the following graph.

The graph shows that the number of applicants seeking admission to various courses in 2010-11 increased by 46.3% as compared to admissions in 2007-08.

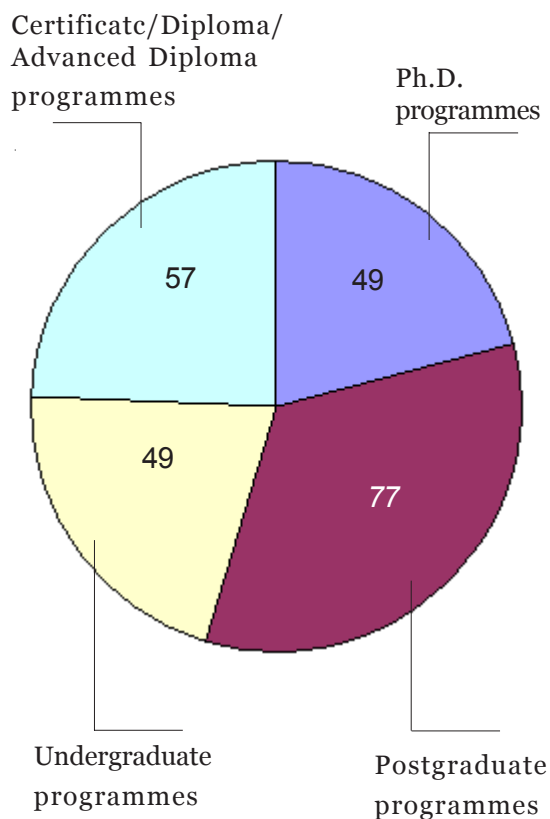

A chart showing the number of Application Forms received during four academic sessions

Teaching and Research Programmes

The admission process in Jamia for the academic session 2010-11 was completed during July- August 2010. On the basis of the JMI-Management Information System (MIS), a total of 232 teaching and research programmes are currently being offered by the University, which include 49 Ph.D. programmes in different disciplines and 183 teaching programmes at the postgraduate, undergraduate, diploma and certificate levels.

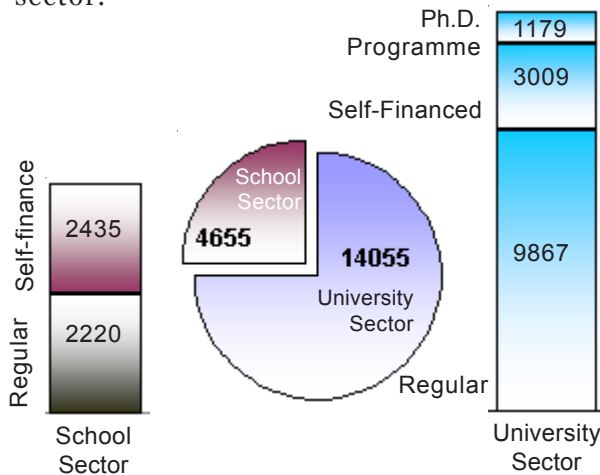

Ph.D. programmes	49
Taught programmes:	
• Postgraduate	77
• Undergraduate	49
• Certificate/Diploma/ Advanced Diploma	57
Total	232

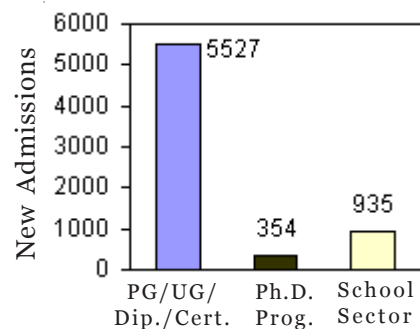

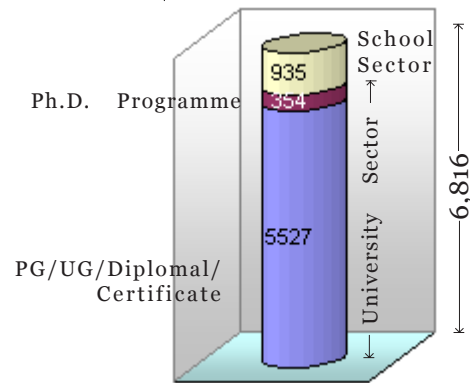

Enrolments-2010

During 2010, there were 5,881 new admissions (including 354 admissions in PhD programmes) in the University sector, whereas in the School sector there were 935 fresh enrolments. Thus the number of new admissions in all sectors of the University during the year has been 6,816. With this, the total number of students enrolled in the entire University as on October 6, 2010 stands as 18,710. Out of this, there are 14,055 students in the University sector and 4,655 in the School sector.

Total Enrolments in the University and School Sectors during 2010

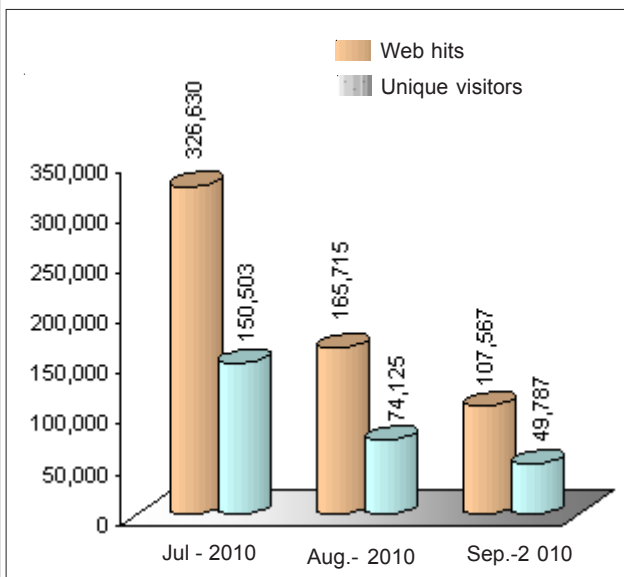

New Admissions during 2010 in the University Sector and School Sector

Web Info

Website Visits

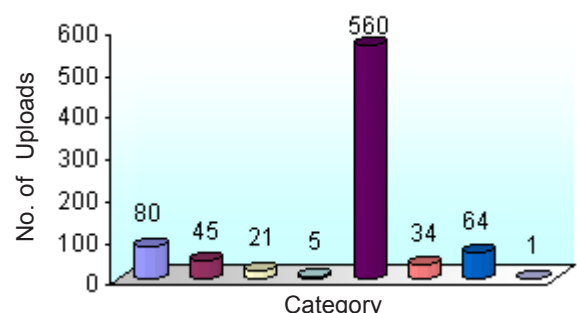

During July-September 2010, there were 2,74,415 unique visitors to the Jamia website and the total number of web hits during the same period was 5,99,912. A graphical representation is given below:

Website Uploads

A total of 810 documents were uploaded on the Jamia website during the 3rd quarter of 2010. Their details are given in the following.

Features uploaded	No. of Documents
Notices and Office Orders	80
Tender Notices	45
Events and Conferences	21
Outreach programmes	5
Admission-related Documents	560
Profile of Faculty Members/ Departments	34
Job Vacancies in Jamia	64

JMI-MIS incorporates the Semester System

With the introduction of Semester System in postgraduate programmes in Jamia from the academic session 2010-2011, the FTK-Centre for Information Technology carried out the task of transforming various data in respect of 32 postgraduate programmes from the annual system to the semester system. The data were transformed for the following features:

- Entrance Application Form (for updating students' primary information),
- Course Information (to create a new course based on Semester System),
- Subject Information (to create newly introduced Subjects/Papers),
- Subject Paper Allocation (to create admission slip to opt compulsory /optional subjects, according to new syllabus),
- Admission/Re-registration Form (to maintain the history of a student),
- Admission Slip (to generate course wise Admission Slip),
- Attendance Register (to make corrections in the Course name and Session),
- Student Identity Card (for generating new Curriculum based Identity Card),
- Student Information (for current status of Enrollment of students).

Some of the MIS-generated reports related to the Semester System are displayed in the following:

- Department of Commerce and Business Studies
- VC Lodge
- Administration Building

Media Coverage of the e-File Tracking System

As part of the e-governance initiative in the University, the “e-File Tracking System” was implemented in Jamia in the 2nd quarter of the year. This received wide media coverage in leading news papers like the Times of India and The Hindustan Times and also in other print as well as web media. Some of the extracts printed in the newspapers and also some references of the Web media are given in the following:

Aiming for implementation of e-governance on its campus, the Jamia Millia Islamia University is now preparing to be the country's first varsity with an e-file tracking system for its various departments. This intranet file tracking software, developed by the FTK-Centre for Information Technology (FTK-CIT) of the university, will enable authorised users to monitor the movement and tracking of their respective files or papers within the university.

The go-to website address for small business.

"The new file tracking system will facilitate access of files for the university staff and expedite the work," CIT Director Z.H. Khan said.

"We have numbers of files in different sections. To find out a file, one had to run from one branch to the other. With the help of this new software, the staff can search out the files by typing simple keywords," Khan said.

"We will first use the system in the registrar's and the vice-chancellor's offices since most of the important files are kept there and later on we will implement it in other departments, including faculty offices," he added.
