ABOUT CONFERENCE

Biology is fast moving from being a descriptive field to an exact science, a transition that will increasingly require input from all branches of Natural Sciences. The cynosure of the conference will be on Biological Sciences and innovative research tie-up: enhancing frontline studies in almost all aspects of modern biology. Department of Biosciences, Jamia Millia Islamia is organizing a National Conference on the theme, "Recent Advances in Biological Sciences". This conference will provide an opportunity to researchers from across the country to share and enkindle new ideas. This will also provide an important and effective forum to enhance national collaborations among scientists from different parts of the country.

SUB-THEMES

Animal & plant biotechnology	Computational biology
Molecular biology	Protein chemistry
DNA-protein interactions	Cancer therapeutics
Infectious diseases	Nanobiotechnology & biosensors
Molecular virology	Bio-physical chemistry
Environmental microbiology	Drug design & development

ORAL/POSTER PRESENTATION

All registered participants are encouraged to prepare an oral/poster presentation of their recent research activities. They are requested to submit an abstract not exceeding 250 words latest by 26 February, 2020.
