

ORGANIZING CHAIRPERSON

“Tell me and I forget, teach me and I remember, involve me and I learn.”

-Benjamin Franklin

Dear delegates,

It's a great privilege for Jamia Millia Islamia to host the **NORTH ZONE ORTHODONTIC P. G. CONVENTION 2019**. Established in 1920, JMI is a NAAC accredited “A grade” Central university with 9 faculties, 40 departments and 25 centers providing various graduate, post graduate and doctorate courses. Faculty of dentistry is the youngest faculty of the university which has successfully organized various scientific programs including its annual event “**An Insight into Orthodontic PG Examination**” for the past 8 years.

The theme of this convention is “**PROBLEM BASED LEARNING**” which empowers the learner to integrate theory and skills in developing a viable solution for a defined problem. The convention will focus on interactive sessions and discussions rather than sole lectures.

There are **2 PRE-CONVENTION COURSES** on the most basic areas of Orthodontics: **Myofunctional** appliances and **Biomechanics**. These hands-on courses will provide the student a platform to enhance their clinical skills and theoretical knowledge.

The highlight of the convention is a panel discussion on “**JOB OPPORTUNITIES IN INDIA AND ABROAD**” The panelists from various countries will share their expertise regarding career opportunities available nationally and internationally.

The students will also get an opportunity to present **PAPERS AND POSTERS** which will be evaluated by experts to enhance the students academic performance.

Join the scientific extravaganza, enjoy the National Capital territory and the warm hospitality of **Jamia Millia Islamia**.

The knowledge and insights you will get in these 3 days will make it worth the trip.....

Dr. Ragini

Organizing Chairperson,

North Zone Orthodontic P. G. Convention 2019

ORGANIZING SECRETARY

सर्व ज्ञानं मयि विद्यते

Dear students this beautiful Sanskrit quote means “*All that I have to learn is within me*”.

Since ages we have been trying to demystify the truth that lies within us. Science is progressing at a rapid speed and only those clinicians who will better understand the biology will be able to do justice to their patients. In an effort to bring the essence of Art and science of Orthodontics, we have crafted this convention to include topics related to academics, research and career prospects. The theme of this convention is “PROBLEM BASED LEARNING” a strategy by which students will learn to integrate theory and skills in developing a viable solution for a defined clinical situation. So, there will be lectures followed by quick discussions for better understanding of the topic. As, Organizing Secretary I look forward to welcome you and enjoy the warm hospitality of Jamia Millia Islamia, a Central university located in heart of Delhi.

Dr.Panchali Batra

Organizing Secretary

SCIENTIFIC CHAIRPERSON

Heartiest wishes from the Scientific desk.

Education is not the learning of facts, but training your mind to think.

Albert Einstein

This North zonal PG convention warmly welcomes all the postgraduates to acquire skills of critical thinking with an approach of “ Problem based learning “ under the able guidance of stalwarts, invited from India and abroad. The pre- conference workshops have been carefully drafted to deal with basics of myo-functional appliances and biomechanics, topics which are mandatory to becoming an orthodontic post graduate. This would be followed by conference lectures both on basics and clinical aspects in orthodontics, designed to make it interactive and interesting for the attendees. Another highlight of the conference is a panel discussions on “Job opportunities in India and Abroad” to help the post graduates to take an informed decision about the course of their lives after completing post-graduation, opening new arenas in their life.

We warmly invite all the postgraduates for their enthusiastic participation in convention and paper / poster presentation sessions and hope to make it memorable for one and all.

Warm Wishes

Dr Priyanka Kapoor
