

National Seminar
on
“Environmental Concerns and Sustainable Industrial
Growth: Prospects and Challenges”
Organized

by

Department of Economics, Jamia Millia Islamia, New Delhi
As a part of UGC DRS-II under UGC Special Assistance Programme
Date: 24-25 March, 2017

Concept Note

The process of economic development necessitates the industrial development and its growth. India aspires to achieve GDP growth at a rate from 7 to 9 per cent per annum to fulfill the development desires of the masses. In this endeavor industrial growth is supposed to contribute considerably. Make in India campaign is basically to encourage manufacturing within the country. It is generally believed that there is trade-off between environment and industrial growth. Industrial growth affects environment by many but more through its demand for high energy. However, the thinkers, environmental economists, voluntary organizations, activists raised several issues with regard to environmental concerns. Whether these environmental concerns are really considered in the present industrial growth pattern or not is a big challenge in this globalised, growth oriented economy.

In this context, the two day national seminar is being organized to provide opportunity to economists, policy makers, thinkers, environmentalists and others stake holders to deliberate and exchange ideas to devise pathways to industrial development in a healthy environmental framework in the long term interest of the economy.

The following are sub themes of the seminar/ conference:

1. Environmental industry linkages.
2. Policy relevance to industry.
3. Trade-off between environment and industry.
4. MSMEs and environmental concerns.
5. Pollution abatement and technology transfer.
6. Environment friendly technologies and cost effectiveness.
7. Implementation and effectiveness of industrial waste management.
8. Industry environment case studies at grass root level evidences.
9. Industrial Pollution and health concerns.
10. Gendered dimension of industrial pollution.
11. Industrial pollution and international treaties.

Call for Papers:

The national seminar on “Environmental Concerns and Sustainable Industrial Growth: Prospects and Challenges”, aims at bringing together the researchers, academia, policy makers, civil society organizations, industry representatives and other scholars to an international forum for the dissemination of original research results, new ideas and practical experiences which concentrate on both theory and empirics. The seminar solicits both theoretical and empirical research papers associated with themes of the seminar.

Authors are advised to submit their papers electronically in MS Word format to Mr. Tauqeer Alam Farooqui at Email: tfarooqui@jmi.ac.in and copy to Dr. B. Srinivasu at Email: sri_bathula@yahoo.com. All abstracts accepted for presentation will automatically be published in souvenir. Papers will be blind refereed and revised version of selected papers will be considered for publication.

Important Date:

Last Date of Abstract Submission: 22 March, 2017

Conference Date: 24-25 March, 2017
