FOREWORD

It gives me immense pleasure to present the Annual Report of Jamia Millia Islamia (JMI) for the academic year ending March 31, 2017.

The Annual Report 2016-17 presents the data and statistics of achievements and all-round growth of the university. The report comprehensively aggregates the academic, administrative and extracurricular activities undertaken by various faculties, departments and centres of research and excellence during the period.

The year 2016-17 has been particularly a successful one for the university given that JMI has been ranked 6th among Central universities and 12th among 750 universities in the MHRD's National Institutional Ranking Framework (NIRF), 2017, besides, for the first time, JMI has been listed among the top 1000 institutions worldwide ranked 801-1000 by the prestigious Times Higher Education (THE) World University Ranking.

Several academic activities like conferences, seminars, symposia, workshops, MHRD's Global Initiative of Academic Networks (GIAN) courses, national and international collaborations testify the deep academic engagement of the faculty members and the proactive approach of the administration in taking the institution to a new height. Research projects, both at individual and institutional levels and the ever-increasing number of publications reflect the research orientation of the university. All these have led to an increase in the university's *h*-index, citations and overall ranking.

I thank Dr. Z. A. Ansari, Professor, Centre for Interdisciplinary Research in Basic Sciences, JMI for coordinating and helping in the compilation of the Report. I also thank the Pro-Vice Chancellor, Prof. Shahid Ashraf, Registrar, Mr. A. P. Siddiqui, IPS and Prof. Shafeeqe A. Ansari, Hony. Director, IQAC, for their administrative support in preparing the Report.

I also appreciate the efforts made by Mr. Mazharul Haq Ansari, Assistant Registrar, Academic and Council Branch (A&C) and other staff of A&C in facilitating the collection of information and bringing out the report on time.

Prof. Talat Ahmad
Vice-Chancellor

ABOUT JAMIA MILLIA ISLAMIA

Establishment

Jamia Millia Islamia, a Public Central University; has been established in 1920, originally at Aligarh in United Provinces which in 1925 initially moved to Karol Bagh, Delhi and later built up in Jamia Nagar. In 1988, it became the Central University by an Act of Parliament since then it is expanding in different directions achieving the new dimensions.

The University is the result of the tireless efforts of its founders, such as Shaikhul Hind Maulana Mahmud Hasan, Maulana Muhammad Ali Jauhar, Hakim Ajmal Khan, Dr. Mukhtar Ahmad Ansari, Jenab Abdul Majeed Khwaja and Dr. Zakir Husain. It symbolizes the unflinching and resolute commitment of these great visionaries in bringing about socio-economic transformation of common masses in general and Muslims in particular through the vehicle of education. The distinct identity of Jamia Millia Islamia has been eloquently explicated by Dr. Zakir Husain Sahib.

Jamia Millia Islamia is basically originated as the movement of a struggle for education and cultural renaissance against the colonial regime and evolves a national culture for common Indian. It's foundation is to promote patriotism and national integration among Indians, who will be proud to take part in the future progress of India, which will play its part in the comity of nations for peace and development and to prepare the children of masses in general and Muslims in particular to be the masters of the future in different subjects/disciplines of their choice.

The mission of the founding fathers of this great institution should not only serve as a beacon light for all the stakeholders, but should also inspire all in making this university as one of the premier institutions of higher learning in the world. It should attain distinction in providing cutting edge learning experience, internationally benchmarked education, intellectual freedom and critical research opportunities in frontier areas of contemporary concern.

- To attract and retain diverse creative minds for the actualization of institutional objectives.

Objectives

The objectives of the University shall be to disseminate and advance knowledge by providing instructional, research and extension facilities in such branches of learning as it may deem fit and the University shall endeavour to provide to students and teachers the necessary atmosphere and facilities for the promotion of:-

- (i) innovations in education leading to restructuring of courses, new methods of teaching and learning, and integral development of personality;
- (ii) studies in various disciplines;
- (iii) inter-disciplinary studies;
- (iv) national integration, secularism and international understanding.

Quality Statement

University is committed to deliver quality teaching, research, outreach and consultancy services that meet the expectations of all stakeholders. The university complies with standard and applicable statutory and regulatory requirements. The university continually improves the Quality System effectiveness through periodical reviews at appropriate levels.

Significance of the Logo

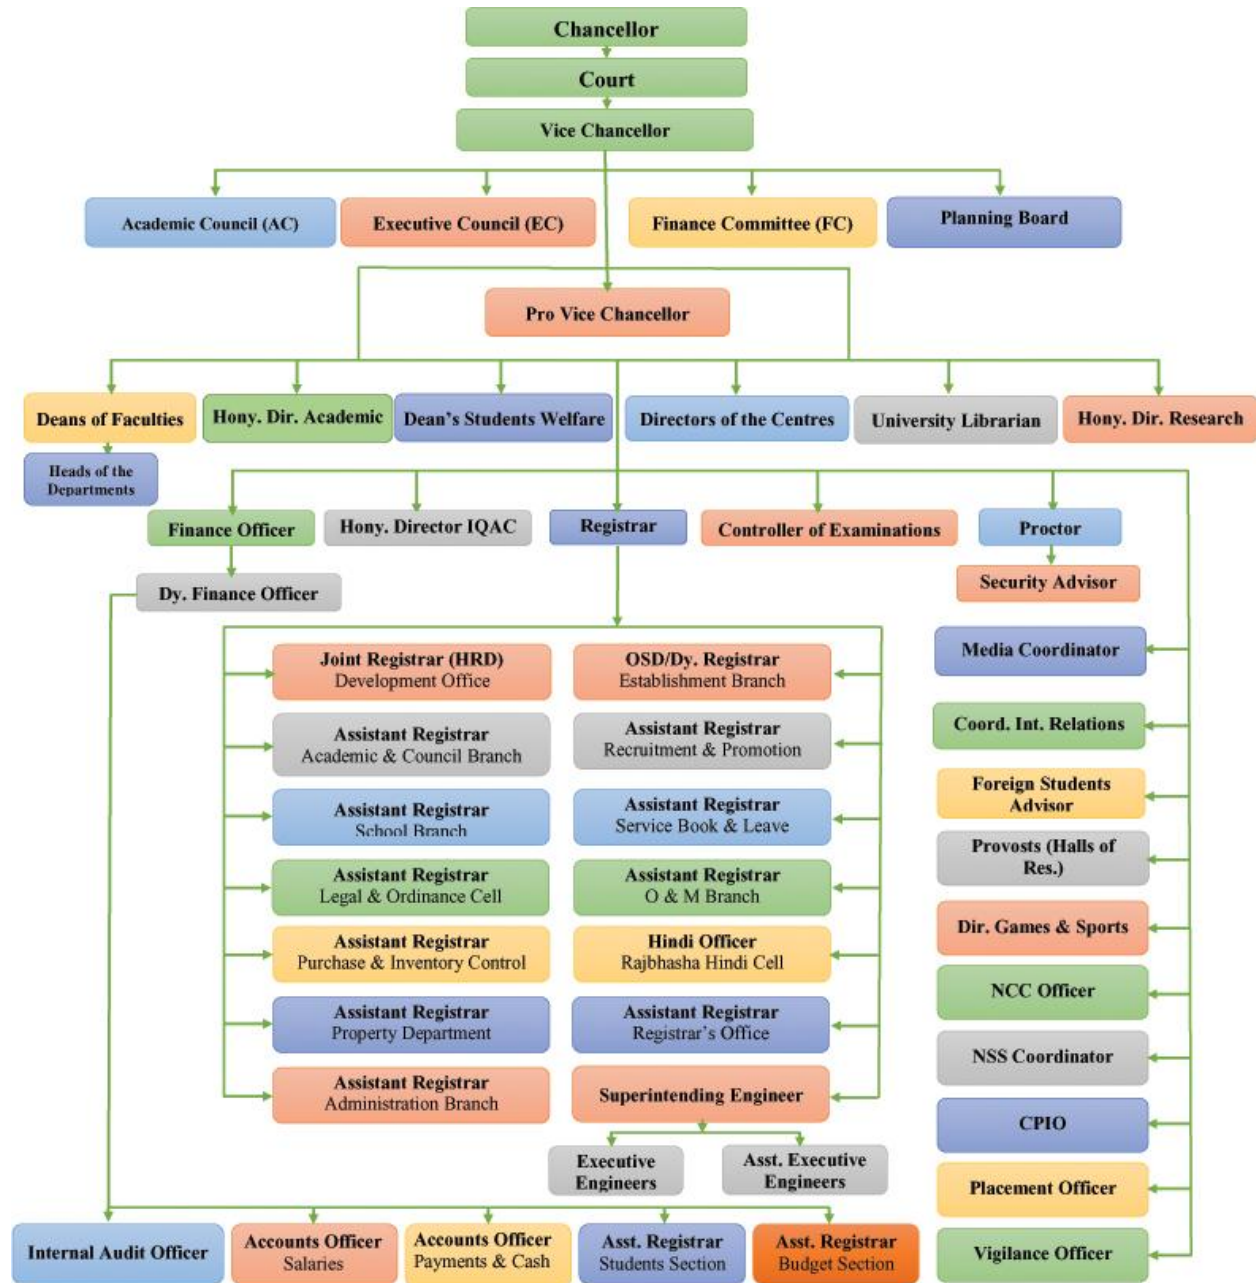

Right on the top is a star with the inscription "Allah O Akbar." When in dark nights poor travellers have to traverse jungles and there is no one to show them the way, they chart their course with the help of stars. The star of Allah O Akbar is the guiding star of Jamia. Its eyes are fixed on this star which shows it the path in the darkling world. It reflects the truth that Allah is the greatest and he who bows his head before Him only, discovers the truth. Having bowed before Him, how can the head bow before anything else? Beneath this glittering star is a book with the inscription, Allamma Insaana Maalam Yalam (Taught man that which he knew not). This is a verse from the Holy Quran. Through the Holy Quran, Allah has revealed His Will to His differences of caste, class, colour, of master and slave, and became true to His tenets. This book led from darkness to light, and placed the wayward and lost on the Straight Path. The Prophet made an example of his own life. By the light of his eyes and the warmth of his heart, He prepared a group of good persons who cleaned the world of evil and spread the Word of God. On both sides of the Book are two date trees typical of the land where God's last Prophet was born. They are symbolic of the

barren valley in which nothing grew; but it was there that the sapling of din took root. These trees are emblems of hope from a land in which not a leaf or flower could sprout; but wherein suddenly the springs of hidaya (guidance) burst forth and drenched the “communities of the heart”. They are a source of consolation for people who became disheartened with adverse circumstances. Why do external factors make them lose hope?

At the very bottom is a tiny crescent which reads “Jamia Millia Islamia” in Arabic. This crescent is small but just as it expands to become the full moon on the fourteenth night, so also Jamia. Meaning that this is the beginning of our work. It will expand to become the full moon and a source of delight for the eve of its beholder.
