MSC in Virology

The MSc Virology Program at MCARS, JMI is to facilitate the students acquire insights into virus biology, viral diagnosis and pathogenesis. The proposed course will be taught by researchers who have been trained in various tools and techniques from world-class universities and institutes. The course structure has been designed to provide the students with hands on training in the latest technologies, while inculcating strong theoretical knowledge of the subject matter. The course would therefore render our students with an edge over those elsewhere and will help them to earn positions in various sectors, like university/institute, industry, hospitals, Pharmaceuticals R&D and scientific organizations in India and Abroad. Additionally, the course, as improvised, tends to make a profound impact in general on the healthcare system, disease management, academia and research.
